3 Days, 3 Conferences

EPEC’s annual event consists of 3 distinct conference opportunities:
- “Become an EPEC Trainer” on October 24th & October 25th
- “Become an EPEC-Emergency Medicine Trainer” (EM) on October 24th & October 25th
- “Professional Development Workshop” (PDW) on October 26th

The Professional Development Workshop can be attended separately or in conjunction with either “Become a Trainer” conference.

“Become an EPEC Trainer” and “Become an EPEC-EM Trainer” conferences lead to participants becoming certified EPEC Trainers who can implement effective palliative care practices at their home institutions and teach others to do the same. The PDW provides opportunities to practice and further enhance teaching and leadership skills.

Why EPEC?
The Education in Palliative and End-of-life Care (EPEC) program, founded in 1999, uses a high-impact, high dissemination curriculum to spread primary palliative care competencies to health care providers across the US and the world. More than 3,500 EPEC Trainers in the US and 25 countries abroad teach the EPEC curriculum to thousands of their colleagues each year. The EPEC program...

» Is built upon a comprehensive, interdisciplinary palliative care curriculum written and continually updated by experts in the field.
» Provides a unique opportunity to learn to teach palliative care to colleagues.
» Allows for hands-on practice to train in effective educational techniques to reach adult learners, including case-based teaching, role play, and interactive lectures.
» Is led by experienced palliative care faculty and maintains a very low faculty-to-participant ratio. (1:20 in Trainer conferences, 1:8 in the PDW)

Updated Curriculum
For 2024, we are excited to present all slides in an updated format and introduce new videos for the EPEC Core curriculum.

### Conference Registration and Pricing
